

Enjoy the last days of summer with a shot of adrenalin at Gold Reef City Theme Park

There can be no better way to enjoy Jozi's warm and pleasant summer days than with a visit to Gold Reef City Theme Park - home of the most exhilarating theme park rides in Africa and much more.

If you want to get your adrenalin flowing, set your pulse racing and feel your stomach in your mouth, be sure to try the Big Five thrill rides at Gold Reef City Theme Park:

The **UFO** will pin you to your seat with a centrifugal force of note. Hold onto your socks as the ride swirls around at speeds of 50 km/h.

Fear Factor: 7

From start to finish, the **Golden Loop** rollercoaster ride will blow your mind away. You'll be propelled to a height of 40m in less than three seconds at a gut-wrenching speed that accelerates from 0 - 85km in the blink of an eye. But beware! What goes up must come down.

Fear Factor: 8

The **Miner's Revenge** puts you in the grasp of a very angry gold miner. Are you brave enough to live through his drilling? This ride rotates at 360° while the seats spin around, dropping you head first, causing you to tumble over into the fountain.

Fear Factor: 8

The **Anaconda** is made just for the adrenalin junky. Take your seat & prepare to curl like a giant snake, roar like a frightened lion and sweat like a scared rat. Welcome to the Anaconda.

Fear Factor: 9

If you'll dare to ride the **Tower of Terror**, you'd better bring an extra pair of pants. You'll be dropped 50m from the crest of the ride at 100km p/h straight into an open mine shaft, though your stomach might stay at the top of the tower.

Fear Factor: 10

Admission to the Theme Park includes all rides, shows and exhibitions, but excludes 'Jozi's Story of Gold.' For more information, contact Gold Reef City Theme Park on 011 248 5000, email info@goldreefcity.co.za or visit www.goldreefcity.co.za. Please consult with us to check that your favourite thrill ride is open on the day that you plan to visit the Theme Park. It may happen from time to time that rides are closed for maintenance and enhancements.
